Arif Sayed

A meticulous leader with a hands-on approach, Arif is the driving force behind the execution of Amazon Designs' turnkey solutions. It's not just about meeting deadlines but about exceeding expectations and creating spaces that truly reflect the client's vision. He thrives on the challenges of bringing complex designs to life and managing on-the-ground operations with precision and efficiency. His leadership and expertise in construction and project execution have been instrumental in delivering exceptional results, earning the trust and admiration of clients. Whether it's managing a multi-phase construction project or coordinating the fine details of a custom design, Arif's leadership ensures that every aspect is executed with excellence.

Yusuf Sayed

A dynamic personality with a talent for building relationships and managing opportunities, Yusuf Sayed is the cornerstone behind Amazon Designs' client relationships, PR strategies, and tendering processes. With a knack for building meaningful partnerships, identifying opportunities, and acting as the bridge between clients and the company, Yusuf, the visionary, brings a strategic approach to understanding and addressing client needs, tailoring solutions that align with their vision.

For Yusuf, success isn't just about securing projects but about creating lasting relationships and delivering exceptional value. His leadership has played a key role in propelling Amazon Designs' growth, solidifying its reputation for professionalism, quality, and client satisfaction.

Turnkey Solutions

Project Management

Delivering seamless, high-quality results with precision and efficiency across industries.

01 Turnkey Solutions

At Amazon Designs, we have served more than 20 industries, making our services unparalleled. We are versatile and adept at handling diverse industry needs, from managing intricate project supplies and executing flawless commercial fit-outs to crafting exceptional hospitality venues and developing state-of-the-art healthcare facilities

01 Project Supplies

We ensure that all our supplies for your project are of the highest quality. We partner with reputable suppliers and manufacturers who share our vision. Our rigorous quality control processes guarantee that all supplies meet the highest standards, contributing to the overall success and durability of your project.

02 Commercial Turnkey Fit-outs

At Amazon Designs, we handle commercial turnkey fit-outs that transform your business spaces into functional and efficient environments. We manage every aspect of the project, including design, project management, procurement, and construction, allowing you to focus on running your business.

What Our Clients Say

“

First, when I came across Amazon Designs, it was to fix the security systems of my current business. They were super quick with their work. This is my second time working with them; this time it is for gypsum ceilings and partitions. Additionally, I continue to use their services for my business's air conditioning. Not once have they disappointed me. I urge you all to use their services as well, they won't disappoint you. Thanks to Amazon Designs and their team for making these problems easier to handle!

Abhay Raina

Director

“

Our experience with Amazon Designs has been fantastic. From our first meeting to the final touches, their turnkey solutions turned our ideas into reality. Their team took care of everything, so we didn't have to worry about the details and could stay focused on running our business. The best part was that we didn't have to juggle multiple vendors or manage different aspects of the project ourselves since they handled everything. They made the whole process smooth and easy. I highly recommend them if you want a complete, hassle-free solution!

Faisal Shaikh

CBO

What Our Clients Say

“

Working with these guys was a game-changer for our company. Their comprehensive turnkey solutions were a huge time-saver, streamlining our entire project and handling every detail. We appreciated having a single point of contact for all our needs, which made the process much more efficient. The project was completed on time and within budget. Their professionalism and expertise truly made a difference. I highly recommend Amazon Designs to anyone looking for a reliable partner who can deliver exceptional results without the usual hassle.

Ankita Singhania

CEO

“

We were starting a new business and purchased a location for it. We partnered with them for carpentry, electrical work, and other essential tasks needed for a new business. Their expertise and comprehensive approach made the entire setup remarkably smooth and straightforward. Instead of spending valuable time finding and managing multiple contractors, we relied on them as our single point of contact. Their streamlined approach turned what could have been a complex process into an easy and hassle-free experience. We highly recommend them to anyone in need of a reliable partner for their business setup!
